Pune, Maharashtra, India | +91-8766788778 | nikhilrathod0704@gmail.com | LinkedIn: linkedin.com/in/nikhil-rathod-313b2517b

PROFESSIONAL SUMMARY

Java Developer with 3+ years of experience designing, developing, and maintaining scalable enterprise applications using Java 8/11, Spring Boot, Microservices, REST APIs and SQL. Proven expertise in backend development, performance optimization, database tuning, and cloud-ready application development. Successfully improved application performance by up to 30%, reduced deployment downtime by 40%, and enhanced software quality through automated testing and CI/CD practices. Experienced in Agile/Scrum environments with exposure to AWS, Kafka, and distributed system architectures. Passionate about building high-performance, maintainable software solutions that drive business value. Built an AI-powered job application automation platform using Spring AI, Ollama, and Selenium that scrapes LinkedIn job posts, extracts recruiter information, performs AI-based resume matching, and sends personalized recruiter emails automatically.

TECHNICAL SKILLS

Programming: Java 8/11/21, Core Java, OOP, Multithreading, Collections Framework, Exception Handling, Generics

Frameworks: Spring Boot, Spring MVC, Hibernate, JPA, Spring Security (Learning)

Architecture: Microservices, REST APIs, Distributed Systems, Event-Driven Architecture, Design Patterns

AI & Automation: Spring AI, Ollama, Prompt Engineering, Selenium WebDriver, LLM Integration

Databases: Oracle, MySQL, SQL Optimization, Stored Procedures, Query Performance Tuning

Cloud & DevOps: AWS (EC2, S3), Jenkins, Git, CI/CD Pipelines, Maven, Gradle

Messaging & Streaming: Apache Kafka

Testing: JUnit, Mockito, Test Driven Development (TDD), Integration Testing

Tools: Postman, JasperReports, Agile/Scrum, SonarQube (Learning)

PROJECTS

EasyApply – AI-Powered Job Application Automation Platform

Technologies: Java 21, Spring Boot, Spring AI, Ollama, Selenium, Maven

- Built an end-to-end job application automation platform using Spring Boot, Spring AI, Ollama, and Selenium.
- Scrapes LinkedIn job and recruiter posts automatically using Selenium WebDriver.
- Extracts recruiter information, skills, experience requirements, and contact details from posts.
- Uses Ollama LLM through Spring AI to analyze job requirements and match them against resume skills.
- Generates customized recruiter emails dynamically based on job description and candidate profile.
- Automatically sends personalized emails with resume attachments to recruiters.
- Implemented resume parsing, skill extraction, AI-based scoring, and recruiter targeting workflows.

Deal Manager Modernization

Technologies: Java 11, Spring Boot, Hibernate, SQL, REST APIs

- Modernized legacy enterprise applications by migrating critical modules to Java 11 and Spring Boot.
- Refactored business logic into modular service-layer architecture, improving maintainability and scalability.
- Reduced production defects by 35% through enhanced validation, exception handling, and testing practices.
- Improved application performance and compliance with modern enterprise development standards.

PROFESSIONAL EXPERIENCE

Software Engineer Dec 2024 – Jun 2025

InfoVision Pvt Ltd | Pune

- Designed and developed scalable Spring Boot microservices and REST APIs supporting enterprise applications, improving deployment reliability and reducing downtime by 40%.
- Implemented optimized SQL queries and backend processing logic, enhancing application performance and reducing transaction latency for high-volume business operations.
- Collaborated with cross-functional Agile teams to consistently deliver more than 95% of committed sprint objectives across multiple releases.
- Increased automated test coverage to 85% using JUnit-based testing strategies, improving application stability and release confidence.
- Provided Level-3 production support for business-critical systems, maintaining 98% SLA compliance and minimizing customer-impacting incidents.
- Contributed to Jenkins-based CI/CD improvements, accelerating deployment cycles and reducing manual release activities.

Application Analyst I Jan 2024 – Dec 2024

Avaya Pvt Ltd | Pune

- Migrated enterprise applications from legacy Java versions to Java 11, improving maintainability, performance, and long-term platform support.
- Automated reporting and billing workflows using JasperReports, reducing manual effort by 60% and significantly improving operational efficiency.
- Worked closely with product owners and stakeholders to translate business requirements into scalable technical solutions.
- Contributed to Jenkins-based CI/CD pipelines, improving deployment consistency and reducing release risks.
- Collaborated within Agile Scrum teams, achieving over 95% on-time delivery of planned features and enhancements.
- Performed root-cause analysis and production issue resolution, improving system reliability and customer satisfaction.

Software Engineer Aug 2022 – Dec 2023

InfoVision Pvt Ltd | Pune

- Developed enterprise-grade modules using Spring Boot, Hibernate, and SQL for high-volume transactional systems.
- Optimized database queries and indexing strategies, improving backend performance by 20% and reducing application response times.
- Automated business workflows that reduced manual processing effort by 30%, improving overall team productivity.
- Participated in Apache Kafka proof-of-concept initiatives to evaluate asynchronous event-driven processing architectures.
- Evaluated Apache Spark-based batch processing solutions for large-scale data processing performance improvements.
- Collaborated with QA, business analysts, and stakeholders to deliver high-quality enterprise solutions aligned with business goals.

EDUCATION

Bachelor of Technology (Information Technology) Aug 2018 – Jun 2022

Rajarambapu Institute of Technology, Sangli

CGPA: 8.53 / 10
